

# Wavebase by Peoplewave

Revolutionise recruitment, background checks, onboarding, performance reviews and people management

## What are the problems Wavebase solves?

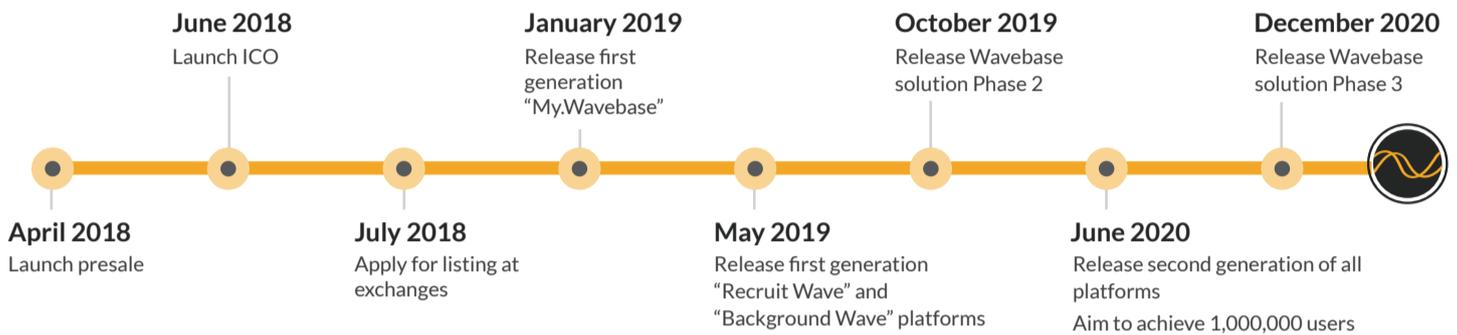

### Real HR Problems

- Employers retain performance data even though it is data about the employee.
- Research reveals that 85% of applicants have lied on their CVs or applications.
- Background checks is manually done, inefficient, and time-consuming.

### Our Wavebase Solutions

- Employees have full control over what is rightfully theirs - their performance data - on Wavebase.
- Employers use PWV to access immutable information about the applicant on Wavebase.
- Background checks that normally takes 1 week can now be done in 30 minutes on Wavebase.
